

GLOSSARY of Terms used in this protocol:

In this protocol the term Accredited Register refers to any of the organisations who are accredited by the Professional Standards Authority under its statutory powers and the term Accredited Registers means all of them collectively.

The statutory programme operated by the Professional Standards Authority for the accreditation of registers of health and care practitioners who are not subject to statutory regulation.

A notification from one AR to all other ARs in the form and with the content referred to in this protocol.

Within this protocol, use of the word data includes only data relating to removal from an AR as the result of disciplinary procedures and which is in the public domain

This is the divulging of, or provision of access to, data.

The process of sharing by ARs of information, including data within the meaning given in this protocol, in the course of, and within their legal powers and responsibilities, for the purpose of public protection.

This is the title of this protocol,

1
